

Project Management Framework:

i. Stakeholders' needs and expectations

Stakeholders: - Project manager
- Project Team
- Project Sponsor
- Support Staff
- Customers
- Users

ii. Scope management

Steps	Description
Plan Scope Management	Image Search engine will be developed to do a similarity search for the proposed trademark with the registered trademarks.
Collect Requirements	Determining, documenting, and managing stakeholder needs and requirements to meet project objectives.
Create WBS	The process of subdividing project deliverables and project work into smaller, more manageable components.
Validate Scope	The process of formalising acceptance of the completed project deliverables.
Control Scope	The process of monitoring the status of the project and product scope and managing changes to the scope baseline.
